APPLICATION FOR USE PERMIT FOR ONSITE WASTEWATER TREATMENT SYSTEM Forms and Instructions

Use this packet to apply for a Use Permit, which is generally, required for the sale of any property served by an onsite wastewater treatment system installed more than five years from the date of application. A Use Permit may also be required for certain Planning and Zoning case approvals as well as the remodeling or reconstruction of an existing dwelling.

All tanks must be pumped and each system on the property must be inspected.

Use **FORM 704** to renew a <u>current</u> use permit for a property that has not yet closed.

Use **FORM 800** for sale of a limited occupancy dwelling that does not have a standard onsite wastewater treatment system (such as a privy or outhouse).

Use **FORM 900** when the onsite wastewater treatment system does not pass inspection and will be repaired after the closing occurs.

Before applying for the use permit, a private use permit inspector must pump each septic tank and inspect every system – the County does not perform this work. A list of inspectors may be found at the website shown above.

TO APPLY FOR A USE PERMIT:

- 1. **SUBMIT** the following forms:
 - FORM 700 (this form) signed by the current owner.
 - FORM 701 (inspection report) for EACH system dated within 30 days of application date
 - FORM 702 (pumping report) for EACH tank dated within 12 months of application date
 - FORM 703 (for mechanical systems only) dated within 30 days of application date.
- 2. **FEE: \$100.00** attach a check payable to Jefferson County Treasurer. Do not send cash in the mail. Credit card payments are not being accepted unless submitted in person.

PROCESSING TIME

Allow 7-10 working days to process your application.

Owner Statement Regarding Operational Status of an Existing Onsite Wastewater Treatment System

By applying for this permit, the owner states that to the best of their knowledge:

- all onsite wastewater treatment systems on the property described in this application have functioned properly for a period of at least one year prior to the date of this application (or date property became vacant), meaning that none of the following has occurred: surfacing of sewage from any portion of the system (or a buildup of ice during winter months); slow or sluggish drains; damage to any part of the system; or any other factor that would impact the suitability and operation of the system,
- no repair or invasive treatment of the onsite wastewater treatment system components has occurred in the last 12 months unless performed in conjunction with this application, and
- there are no wastewater discharge lines that are not connected to the system.

The owner also grants the health officer access to the property to verify information contained in any document or report submitted with this application.
